## **CAMP PHILOSOPHY**

Basketball is a complex sport that requires more than just playing games to seriously improve one's level of play. In order to develop confidence in their abilities, all young players need to be taught the basic fundamentals of the game. Individual work on these basics during the off-season is imperative to making any player more fundamentally sound & better prepared for competitive play.

**Offensive Training Clinic:** Intense workout designed to improve guard & post footwork, shooting form/range, catching, getting open, ball handling & moves to basket.

**Skills & Drills Academy:** Fundamental instruction focused on basic skills that all basketball players should master. Designed for boys & girls of **EVERY** talent and age level, the camp encourages all players to work on their weaknesses by teaching appropriate drills to do so.

**ADVANCED\* Skills & Drills Academy:** Extends campers' knowledge gained during AM sessions in **3v3** or **5v5 scrimmages**. The camp also focuses on guard & forward position instruction as well as acute training in offense, man defense & transition team strategies.

\* **Advanced PM campers must attend AM session(s).**
